RE: Annual Listing of Federally Obligated Projects for Federal Fiscal Year 2013-14

The Moving Ahead for Progress in the 21st Century Act (MAP-21) requires the Metropolitan Transportation Commission to publish a listing of projects using federal funds obligated in the previous federal fiscal year (the "Annual Listing"). The Annual Listing provides a record of project delivery and promotes awareness of government spending on transportation projects.

The Annual Listing includes text explaining the different obligation groups, as well as summary listings by categories such as mode, system, and fund source. Additionally, the Annual Listing includes commonly used abbreviations and acronyms to help the public better understand the federal obligation process.

MAP-21 also encourages cooperation among the state transportation agency (Caltrans), public transit operators, and MTC to develop this Annual Listing. As a part of our development process, MTC distributed the draft Annual Listing to the Bay Area Partnership Working Groups and stakeholders for comment. The information comes from data compiled by Caltrans and MTC. For the last federal fiscal year (2013-14), the region obligated approximately \$1.70 billion in federal transportation funds.

The Annual Listing has two sublistings: road and highway projects, and transit projects. Information for the road and highway project listing includes obligation of fund sources such as Surface Transportation Program (STP), Congestion Mitigation and Air Quality Improvement (CMAQ), and miscellaneous Earmarks. The source of this information is Caltrans and MTC. The second table, for transit, includes obligation of fund sources such as Federal Transit Administration Sections 5307, 5337 and 5309, and the source is MTC.

The enclosed document is available through the Internet at the MTC home page:

### About this Document

Federal Law, under the Moving Ahead for Progress in the 21st Century Act (MAP-21), requires the Metropolitan Transportation Commission, as the Metropolitan Planning Organization (MPO) for the nine-county San Francisco Bay Area, to publish a listing of projects using federal funds obligated in the previous federal fiscal year (FFY). The annual listing provides a record of project delivery for the previous year. The listing is also intended to increase the awareness of government spending on transportation projects to the public. Obligation of federal funds means that a project has received federal commitment for reimbursement, and does not necessarily mean that the project was initiated or completed in that year nor does it indicate the total cost of that project.

This document is available for download on the MTC website at <http://www.mtc.ca.gov>, under the “Funding” tab and “Project Delivery” sub-bullet.

### About the Metropolitan Transportation Commission

Created by the state Legislature in 1970 (California Government Code § 66500 *et seq.*), the Metropolitan Transportation Commission (MTC) is the transportation planning, coordinating and financing agency for the nine-county San Francisco Bay Area. The Commission’s work is guided by a 21-member policy board.

Over the years, state and federal laws have given MTC an increasingly important role in financing Bay Area transportation improvements. At the federal level, the 1991 Intermodal Surface Transportation Efficiency Act (ISTEA) and its most recent successor, MAP-21, empowers Metropolitan Planning Organizations (MPOs) like MTC to determine the mix of transportation projects best suited to meet their region's needs. Congress reaffirmed MPOs’ role in transportation financing in 2012 with the passage of the MAP-21.

### Moving Ahead for Progress in the 21st Century (MAP-21)

On June 29, 2012, Congress passed H.R. 4348 (Mica), *Moving Ahead for Progress in the 21st Century Act* (MAP-21), the first long-term federal highway/transit authorization bill enacted since 2005. Signed by President Obama the following week, Public Law 112-141 authorizes \$105 billion for federal highway and transit programs through FFY 2014. The bill consolidates almost 100 separate funding programs and eliminates earmarks. As a result, a larger share of MAP-21 funding is distributed by formula: 93 percent compared to 83 percent under SAFETEA. Overall, California is estimated to receive approximately \$3.5 billion and \$3.6 billion in FFY 2013 and FFY 2014, respectively, in comparison to \$3.4 billion in FFY 2011.

### Regional Transportation Plan: Plan Bay Area

As the agency responsible for transportation planning in the nine-county San Francisco Bay Area, MTC is responsible for adopting the Bay Area’s regional transportation plan. The current plan, known as *Plan Bay Area*, was adopted by the Commission on July 18, 2013. The plan was developed after a three-phase planning process over some 30 months with extensive public involvement.

The plan specifies a detailed set of investments and strategies throughout the region from 2013 through 2040 to maintain, manage and improve the region's surface transportation network. Updated every four years to reflect new planning priorities and changing projections of growth and travel demand, the long-range plan must be based on a realistic forecast of future revenues. Taken as a whole, the projects included must help improve regional air quality. *Plan Bay Area* can be found at the MTC website at [http://www.mtc.ca.gov/planning/plan\\_bay\\_area/](http://www.mtc.ca.gov/planning/plan_bay_area/).

For context, the region relies on various fund sources – among them federal funds – to achieve the set of investments in the plan. Over the 28-year period of the plan, federal funds represent approximately 11% of the revenues for Bay Area surface transportation investments. As a reminder, this obligation report is limited to federal funds and does not include all revenues expended on transportation in a given year.

Only projects consistent with the Regional Transportation Plan's financially-constrained list may be placed in the Transportation Improvement Program (TIP) for federal funding.

#### Transportation Improvement Program

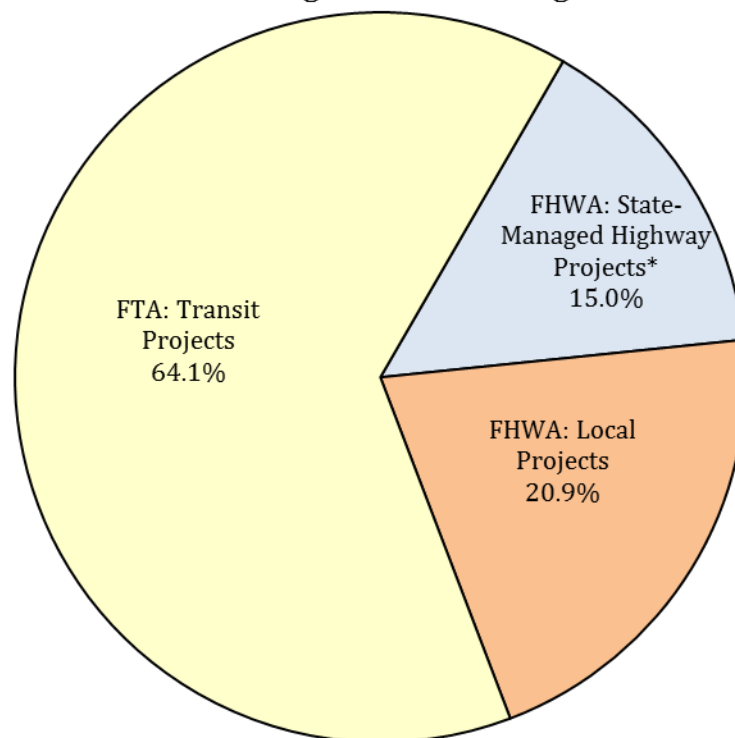

The federally-required TIP is a comprehensive listing of all Bay Area transportation projects that receive federal funds, are regionally significant, or are subject to a federally-required action such as a review for impacts on air quality. The TIP sets forth the region's investment priorities for transit and transit-related improvements, highways and roadways, bicycle and pedestrian, and other surface transportation improvements in the nine-county San Francisco Bay Area. By law, the TIP must be adopted at least once every four years and must cover at least a four-year period and contain a priority list of projects grouped by year. Further, the TIP must be financially constrained by year (meaning that the amount of dollars programmed must not exceed the amount of dollars estimated to be available). Federal regulations also require an opportunity for public comment prior to TIP approval. The 2013 TIP, which covered federal fiscal year 2013-14, was approved by the Federal Highway Administration and Federal Transit Administration on August 12, 2013.

In order for a project to receive a federal obligation, the project's funds must be included in the region's or the state's TIP. MTC's TIP for the San Francisco Bay Area can be found online at: <http://www.mtc.ca.gov/funding/tip/>.

Annual Obligated Project Listing Summary

This annual listing shows that approximately \$1.70 billion of federal funds were obligated in the MTC region. Of this amount, \$611 million was obligated by the Federal Highway Administration (FHWA) for highway, local road, bicycle and pedestrian facilities, transportation enhancement, and air quality projects. Of this \$611 million, the California State Department of Transportation (Caltrans) obligated \$256 million for state highway related projects. Local agencies obligated another \$355 million for local projects on and off the state highway system. A total of \$1.09 billion was obligated by the Federal Transit Administration (FTA) for transit projects. Chart A-1 illustrates the breakdown of obligations by obligating agency.

**A-1: MTC Region Federal Obligations, FFY 2013-14**

Obligating Agency	Total Obligations	Percent of Total
Federal Transit Administration: Transit Projects	\$1,092 million	64.1%
Federal Highways Administration: State-Managed Highway Projects*	\$256 million	15.0%
Federal Highways Administration: Local Projects	\$355 million	20.9%
<b>Total</b>	<b>\$1,703 million</b>	<b>100.0%</b>

\* This amount does not include statewide obligations for which a regional breakdown of funding is not available.

**A-2: MTC-Region Federal Obligations by System, FFY 2013-14**

System	Total Obligations	Percent of Total
Transit	\$1,147 million	67.4%
State Highway	\$342 million	20.1%
Local Road	\$142 million	8.3%
Region	\$65 million	3.8%
Freight/ Rail	\$5 million	0.3%
Public Land/ Trail	\$2 million	0.1%
<b>Total</b>	<b>\$1,703 million</b>	<b>100.0%</b>

Chart A-2 above shows all federal obligations in the MTC region, broken down by system. The largest system receiving federal obligations in FFY 2013-14 was transit, making up 67.4% of all obligations, including funding transferred from FHWA to FTA, or about \$1.2 billion of the \$1.70 billion. State highway projects received the second largest amount of obligations, at 20.1% or \$342.1 million. Local road projects received 8.3% of all obligations with \$141.6 million. Regional projects received \$65.1 million in obligations, and Freight/ Rail and Public Land/ Trail projects received a combined total of \$7.3 million of all obligations.

**A-3: MTC-Region Federal Obligations by Purpose and System, FFY  
2013-14**

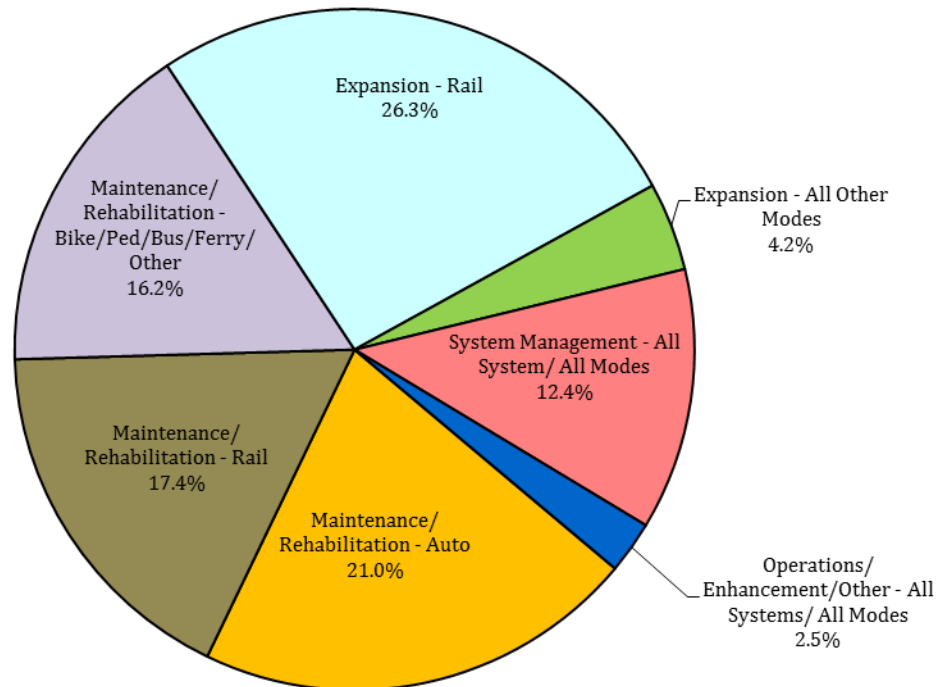

<b>Purpose/System</b>	<b>Total Obligations</b>	<b>Percent of Total</b>
<b>Maintenance/Rehabilitation</b>	<b>\$929.8 million</b>	<b>54.6%</b>

Region	\$30.3 million	14.3%
<b>Operations/ Enhancements/ Other</b>	<b>\$42.3 million</b>	<b>2.5%</b>
<b>Total</b>	<b>\$1,703 million</b>	<b>100%</b>

Chart A-3 above illustrates all obligations in the MTC region, broken down by purpose and system. The investments include 54.6% for ongoing maintenance and rehabilitation of the region's transportation infrastructure, 30.5% to expand our highways, transit, and local roads, 12.4% to manage the system more efficiently, and 2.5% for operating, enhancements, and other investments.

In FFY 2013-14, transit maintenance received the largest amount of federal obligations, making up 33.6% of all obligations, or about \$572.7 million. Transit expansion obligated the second highest amount of federal funds, with 27.1% or \$462.3 million. State Highway maintenance obligated the third highest amount of federal funds, with 16.8% or \$285.8 million of federal funds.

Chart A-4 below illustrates all obligations in the MTC region, broken down by purpose and mode. The modes being tracked are Auto, Bike/Ped, Rail, Freight, Bus, Ferry, Planning and Other. In FFY 2013-14, the purpose receiving the most obligations was Maintenance/Rehabilitation at 54.6% or \$929.8 million in obligations with 38.5% of those obligations being focused on Auto. The second highest obligations were applied to Expansion with 30.5% or \$519.3 million of all obligations with 86.3% of those obligations being focused on Rail.

**A-4: MTC-Region Federal Obligations by Purpose and Mode, FFY 2013-14**

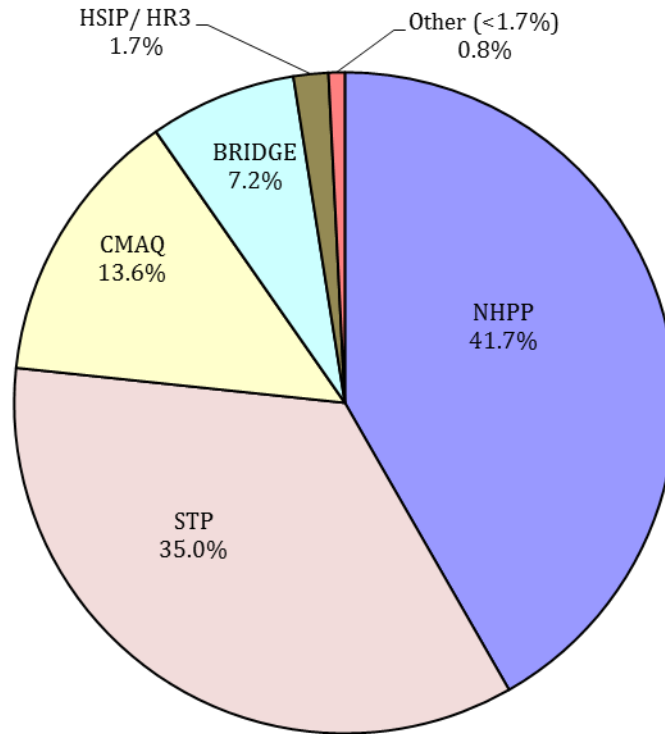

<b>Purpose/Mode</b>	<b>Total Obligations</b>	<b>Percent of Total</b>
<b>Maintenance/Rehabilitation</b>	<b>\$929.8 million</b>	<b>54.6%</b>

<b>Operations/ Enhancements/ Other</b>	<b>\$42.3 million</b>	<b>2.5%</b>
<b>Total</b>	<b>\$1,703 million</b>	<b>100%</b>

Obligated Project Table Charts

The charts on the following pages illustrate the breakdown of obligations by fund program based on data provided in Tables 1 and 2, respectively.

**B-1: FHWA Locally and State-Managed Project Obligations, FFY 2013-14**

<b>Fund Program</b>	<b>Total Obligations</b>	<b>Percent of Total</b>
National Highway Performance Program (NHPP)	\$255.0 million	41.7%
Surface Transportation Program (STP)	\$213.6 million	35.0%
Congestion Mitigation Air Quality Improvement (CMAQ)	\$83.3 million	13.6%
Bridge Program	\$43.9 million	7.2%
Highway Safety Improvement Program (HSIP/ HR3)	\$10.4 million	1.7%
Other (<1.7%) (Misc Earmarks, SRTS, TCSP, HPP, RIP-TE/TAP)	\$4.8 million	0.8%
<b>Total</b>	<b>\$611.1 million</b>	<b>100.0%</b>

Chart B-1 shows that the largest share of funding obligated by FHWA was National Highway Performance Program (NHPP) projects, which obligated 41.7% of federal funds or \$255.0 million. STP projects with total obligations of about \$213.6 million, or 35.0% were the second highest obligations. These funds obligated are mainly used for roadway and transit rehabilitation needs. CMAQ projects obligated about 13.6% or \$83.3 million. The region used CMAQ funds for a number of bicycle and pedestrian improvement and other significant air quality improvement projects. The Bridge Program (Bridge) accounted for \$43.9 million, or 7.2% of the total projects obligated. The High Risk Rural Roads

(HRRR/HR3) program merged with Highway Safety Improvement Program (HSIP) as a result of MAP-21 and made up 1.7% or \$10.4 million of obligated funds.

- The remaining obligations accounting for \$4.8 million or 0.8% are for projects classified under “Other (<1.7%)” funds, including programs such as:
  - Miscellaneous Earmarks (e.g., Non-motorized Transportation, Rail and Highway Crossing Hazard Elimination, Urban Mobility)
  - Transportation Enhancement (RIP-TE)
  - Transportation Alternative Program (TAP)
  - Public Land Highways (PLH)
  - Safe Routes to School (SRTS)
  - Transportation, Community, and System Preservation (TCSP)
  - Redistribution

**B-2: FTA Transit Obligations, FFY 2013-14**

<b>Fund Program</b>	<b>Total Obligations</b>	<b>Percent of Total</b>
FTA Section 5309 New Starts (NS)	\$444.3 million	40.7%
FTA Section 5307 Capital	\$291.5 million	26.7%
FTA 5337 State of Good Repair (SGR)	\$271.1 million	24.8%
FTA Section 5309/5339 Bus	\$49.4 million	4.5%
FTA Section 5309 Fixed Guideway (FG)	\$24.3 million	2.2%
Other (<1%) (FTA 5308 CF, FBD, FTA 5316 JARC)	\$11.5million	1.1%
<b>Total</b>	<b>\$1,092.1 million</b>	<b>100.0%</b>

Chart B-2 shows the breakdown of FTA obligations in FFY 2013-14. The largest share of obligations was for FTA Section 5309 New Starts (NS) which account for 40.7% of FTA-obligated funds, or \$444.3 million. FTA section 5307 account for 26.7% of FTA-obligated funds, or about \$291.5 million. Section 5307 funds can be used for a variety of purposes, including bus purchases, maintenance, and facility improvements. FTA section 5337 State of Good Repair (SGR) account for \$271.1 million, or 24.8% of the FTA obligations. MAP-21 introduced the new formula-based FTA section 5337 SGR program which is dedicated to repairing and upgrading the nation's rail transit systems along with bus rapid transit (BRT). FTA section 5309/ 5339 Bus funds make up a combined total of 4.5% of FTA-obligated funds, or \$49.4 million. FTA 5309 Fixed Guideway (FG) funds accounted for \$24.3 million or 2.2% of transit funds obligated.

Additional obligations occurred in the following fund sources:

- Projects included in the "Other" funds include:
  - Job Access and Reverse Commute (JARC)
  - Ferry Boat Discretionary (FBD)
  - FTA Section 5308 Clean Fuel (CF)
  - FTA 5317 New Freedom (NF)

Annual Obligated Projects Listing Explanation

There are two tables included in the listing at the end of this report:

- Table 1: FHWA State and Locally-Managed Projects obligated, sorted by county, implementing agency, and primary mode. This list includes projects from fund sources such as Surface Transportation Program (STP), Congestion Mitigation Air Quality Improvement (CMAQ), and Federal High-Priority earmarks. Funds transferred to FTA are marked with a "+" after the fund source. State-managed projects include funds obligated by Caltrans for work on the state highway system, and include fund sources such as Emergency Relief (ER), Interstate Maintenance (IM), and National Highway System (NHS) funds.
- Table 2: FTA Transit obligations, sorted by transit operator and primary mode. This list includes all funds obligated directly through FTA.

The columns in the listing include:

- TIP ID, the identification code for the project in MTC's TIP. State-Managed projects do not have this field available, and are noted by a "N/A" or a Caltrans Expenditure Authorization (EA) ID in that field.
- Project Title and Description
- Fund Source, indicating the obligated fund source
- Federal Project ID, indicating the federal project identification code (for FTA obligations, this is the grant number)
- Total Obligation Amount, rounded to the nearest dollar. Negative numbers indicate a deobligation, where the federal funding commitment is no longer needed for the project. For additional information, please contact Caltrans or the project sponsor.
- Obligation Date, indicating the date FHWA (or FTA) obligated the funds
- 2014 Programmed Amount, the Federal amount programmed in FFY 2013-14 only. Please note that blank fields in this column indicate funds obligated were programmed in a year other than FFY 2013-14;
  - These amounts were current in the 2013 TIP as of December 2, 2014.
  - Please note that if there are multiple obligations for each TIP ID, the 2014 Programmed Amount will also be displayed multiple times.
  - Some projects may have been obligated in advance of the TIP program year through the Expedited Project Selection Process (EPSP), which is allowed under federal regulations.
- Future Funding (by TIP ID), the amount programmed in the current TIP, rounded to the nearest dollar;
  - These amounts were current in the 2013 TIP as of December 2, 2014.
  - Please note that if there are multiple obligations for each TIP ID, the future funding amount will also be displayed multiple times.

Caltrans may have additional information regarding the obligations they manage. Many of the funds Caltrans obligates for the State Highway System are programmed in the TIP and obligated at the beginning of the year as a lump sum.

Please note that due to the California Public Employees' Pension Reform Act (PEPRA), many transit agencies experienced delays in receiving awards for FFY 2012-13 submitted grants. As a result, there are higher than usual FTA transit obligations in the period of this Annual Listing, FFY 2013-14.

#### The Use of Toll Credits (TC)

Federal-aid highway projects typically require the project sponsors to provide a certain amount of non-federal funds as match to the federal funds. For example, STP funded projects require a minimum of 11.47% of non-federal match funds. Through the use of toll credits, the non-federal share match requirement can be met by applying an equal amount of toll credit and therefore allow a project to be funded with up to 100% federal funds for federally participating costs.

The amount of credit a state can earn is determined by the amount of toll revenue used for capital expenditures to build or improve public highway facilities. Once a credit amount is appropriately established, this credit will remain available until used by the state. The state is required to track the use of toll credit on a project-by-project basis and report such use to FHWA on a regular basis.

Caltrans has received approval from FHWA for the use of toll credits. At this point, toll credit can be used on all federal-aid highway funding programs, except Emergency Relief (ER) Program, Local Safety Programs, and Local On-System Highway Bridge Program (HBP) projects. The limit of toll credit use on Safety program projects and HBP projects on the state highway system is because all available funds are fully programmed.

Annual Obligation Listing Highlights

Below are the projects with the highest obligation amount in FFY 2013-14 for each of the attached tables.
