Submitted on June 20, 2021 Submitted values are: \*Name\* JS \*Email\* [REDACTED] [1] \*Zip\* [REDACTED] \*Affiliation\* San Jose resident \*Comment\* The housing strategy (468 Billions) seem to be drafted by a group inexperienced and unfocused government employee, who does not have the right skill set or attitude to do a proper work (maybe WFH too much is causing this?). The drafter also seem to be oblivious and ignorant to the technological advances, happening in Bay Area, that may totally change the housing situation, therefore making this draft a total waste of tax dollar (just like sjpermits.org 's new crappy portal that anger almost everyone who is applying for building permit in San Jose). For example, 2050 is about THREE decades from now. How could the plan not taking the potential technological advances (of autonomous vehicles, communication,) into account? It seems the whole draft (a large file) is based on the voice from news media of CNN and certain activists (almost half a trillion is for the socialism agenda? Chinese have gone through that in 1949, for your reference.), instead of the holistic voice and analytical economic analysis from city of San Jose. Looking at the so-called "Economic Strategies" (basic income..), it basically calls for constant stimulus, which would trigger inflation as what is happening now. As an immigrant and also a San Jose resident, I can see why people are always unsatisfied with the officials from City of San Jose. Maybe the officials should first go through some basic training (economy 101, technology) before drafting a plan that is no better than my 5th grade daughter. [1] mailto:[REDACTED]
