ABAG, a non-elected group should not have the right to determine where jobs and housing should be. If ABAG continues to enforce its will on tax paying citizens it must at least have all open meetings with public comment.

Stop trying to force people to live in expensive areas that are already too dense. Think of new ways to reduce traffic. COVID has given you the perfect opportunity to find new ways to improve the commuting workforce issue. Stop imposing your will on our cities.

Linda Jensen, tax payer
