Comment: I live in [redacted] I went to sever meetings for planning the Adeline corridor and gave input about the need for Disabled Parking spaces since many if not most of the 90 units of people living here are Disabled !! We got none. In spite of using our time so they could say they got community input, the focus as usual was on the needs of developers for higher income tenants and neighborhood businesses . Parking can only get harder for us in a neighborhood where we complete for parking spaces with Berkeley Bowl customers and soon the new six story luxury apartments going up on the corner. Does anyone listen? Many of us can not walk very far . We need Disabled parking.
