MTC's middle name is TRANSPORTATION. The region's five major counties that ring San Francisco Bay need integrated rapid transit around the Bay, and reaching out to their neighbors. Our six million people deserve better than the fractured network of MTC's "Regional Rail Plan" that is really no plan at all.

MTC could fulfill its destiny by letting the people vote on such integrated 5-County rapid transit, as the voters did in 1962 with their vote creating BART.
