Subject: Getting involved with transportation

TO: MTC Administration:

It has been my past experience that Jim Hemminger (sp?) and the top staff are NOT interested in citizens' input with regards to important transportation matters that apply to the general public. I used to attend MTC meetings; but became so discouraged with the rudeness of the top officials and the CalTrans people.

So what is this change in attitude or is it just "pretend" to satisfy certain governmental agencies?

I would appreciate a reply to my concerns about MTC and its past history of ignoring citizens' valid transportation statements.
