Dear Sir

I am a resident of Los Altos California for the past 30 years.

The RHNA numbers given to Los Altos are impossible to meet. The City has approved projects, but because of the Covid-19 pandemic, many are not being built. Developers are running onto financial trouble .

As a regular citizen, you may not listen to me, but I hope you will. The threats from your agency is not helping, but only adding stress to oor lives.

I strongly recommend a moratorium on all RHNA requirements until the Covid -19 pandemic is over.

Sincerely

Roberta Phillips
