Subject: Public participation in RHNA process

External Email

Dear ABAG board members,

In looking at the HCD website [Building Blocks: Getting Started - Public Participation](#)

Building Blocks: Getting Started - Public Participation

HCD California Housing and Community Development
HCD provides leadership, policies and programs to preserve and expand safe and affordable housing opportunities ...

I see that it provides considerable guidance regarding public participation. Maybe I just haven't been paying attention, but I don't recall any outreach to the public here in Windsor during the RHNA process. In any case, efforts to include Windsor residents in the process were not adequate.

Thank you,

Brian Bollman
