Dear ABAG Executives,

The numbers you are about to vote on for the Plan Bay Area 2050 are pre-COVID 19 numbers and are obviously inaccurate! This is not a time to proceed with business as usual. Rather, decision-makers need ample time to take several steps back and to accurately assess the fall-out from this unprecedented pandemic before proceeding with any major decisions. Thank you for your thoughtful consideration of this crucial matter.

Sincerely,
Deborah Callister, PhD
