I. Overview

The Metropolitan Transportation Commission (MTC) is the transportation planning, financing, and coordinating agency for the nine-county San Francisco Bay Area. As a Metropolitan Planning Organization, MTC supports the region's network of streets, roads, highways, public transit systems, airports, and other transportation resources, including the movement of goods through ports and freight rail lines. MTC works with cities and counties to establish short- and long-term goals and provides resources to help them reach these goals.

Census data is a valuable information resource used to inform decision making by MTC as well as other public agencies, businesses, and individuals. This compilation has been created to provide easy access to this historical data for the Bay Area.
