Comment: How can you possibly consider the Springs Specific Plan for PDA.

The Springs area is located in a high-fire zone with limited roads for evacuation, two conditions which makes it ineligible to become a PDA.

High-density housing built here will put us all at risk of becoming fatalities from a wildfire or fires associated with a future earthquake. The residents here were never included in the development of the Specific Plan which is against MTC policies of public disclosure and participation. Read the 2020 Sonoma County's Civil Grand Jury report and findings which confirms Permit Sonoma's failure to include the homeowners in the development of the Springs Specific Plan Please take us out of the PDA
