Dear MTC/ABAG,

CA Gov't Code requires your Process to hold Public Meetings to explore alternative means of dealing with housing-jobs imbalances - BUT MTC/ABAG has failed to fulfill this obligation, despite formal documented requests to do so by citizens affected by your proposed Plan.

Of the Substance, Content of your proposed Plan 2050:
ABAG's earlier Plan 2040 vastly under-estimated future Housing-Jobs Imbalances. Your models need to be examined in Public discussion.

Your Plan 2050 densifies geographic area with small apartments, for single people - thus freezing out families needing larger housing. That Plan also ignores people's actual declining use of mass transit - undermining the rationale for the Plan itself, which assumes increasing use.

In short - NO to Plan 2050,

Margaret Kallman,
[REDACTED]
