TWIMC:

On behalf of an East Bay consortium of public/private organizations, and in preparation of submitting written formal comment on the draft Plan Bay Area 2050 document, we would appreciate information in response to the following.

#1 Goods movement in and around the East Bay is a high priority for our organizations. How was goods movement incorporated into the draft Plan Bay Area 2050 document strategies?

#2 Please provide the PowerPoint presentation that describes the Environmental Impact Report process and proposed options for Plan Bay Area 2050.

Thank you.

Scott Wilson/Leo Scott
