Stop.

This is a grab of citizens' individual rights and responsibilities to govern themselves locally.

It is the usurpation of property rights of individual citizens.

Stop.

Power not given by citizens to these un-elected people doing all of this activity at tax payer expense.

Stop.

Get out of local citizens' decisions.

The US federal government has no rights here.

The UN government has no rights here.

We are free men and women here. We insist on being free of your power grab over us as individuals.

Stop.

Sincerely,
Faye Bourret
