I want to be put on record opposing "Plan Bay Area 2040"

Anybody elected or self appointed Official that wants to put in place this type of plan, will one day be held accountable both criminally and civilly for their crimes in corruptly implementing, or tries implementing these kinds of plans which are so detrimental to the general public should be charged with domestic terrorism. how dare anyone hide behind the destruction of the middle class masked as an agency that pretends to be part of the solution when you are part of the problem. We the public will not allow this to continue and when the strict scrutiny of the public shows more powerful than any fake agency, the law will be swift. We are not cattle.

opposed on the record

Andrea DeGeorge
