It is outrageous that you are unilaterally denying citizens the right to have a say in the development of our cities, land, transportation, etc. Are you dictators? Do you think you know better than we do? Are autocrats or just don't care?

You were not elected by us thus, you cannot pretend to represent us. You were appointed to your posts which does not mean you are kings/queens. You just happened to know the right people.

Shame on you for denying democracy and pretending you know what is best for us. Stop pretending you are emperors, MTC! We will be heard!
