Subject: NO to Soviet style Central Planning
Date: Sunday, May 28, 2017 12:13:35 PM

Dear Regulators,
How have we gone from local control to Soviet style central planning?
Housing assignments are incredibly un American. Do you plan next
to order people to live in these units? This is truly Fascist.

Consider the destructive effect this has on many communities. Shoving
stack and pack huge apartments into upscale bedroom communities will
ruin them.

Further, how will the "low to very low income" people in these units benefit?
There are no jobs for them in such communities as Danville and Lafayette.
Likely less educated, how well do you think they will be received? This is
a terrible plan for all.

Mark Fernwood
