----- i've gone to two of these open houses. i felt manipulated and used , instead of feeling like i'd told mtc and abag valuable info . every time you send out a new draft plan, you omit even MENTIONING motorcycles and scooters. you should be encouraging their use for both commuting and for parking economy . yes, you print my sentences but you never utilize or act on powered two-wheeled vehicles and how helpful they could be nor do you place my sentences somewhere where other people might act . . .

Dear ,

Thank you for submitting your comments on Draft Plan Bay Area 2040. We appreciate your taking the time to share your views, and we will be posting your letter on the PlanBayArea.org website later this and sharing it with policymakers who serve on the Metropolitan Transportation Commission (MTC) and the Association of Bay Area Governments (ABAG) Executive Board. As you may know, MTC and ABAG will be hosting public open houses in all nine Bay Area counties in the month of May. Staff will present a summary of comments to members of MTC's Planning and ABAG's Administrative Committees in June. Check <http://www.planbayarea.org> for details on an open house near you and for other news on the Draft Plan, slated for final approval by ABAG and MTC later this summer.

Once again, thank you for taking the time to comment on Plan Bay Area 2040.

Sincerely,

Ken Kirkey
Planning Director, MTC

----- m'cycles are the solution to all of the bay area (and beyond's) traffic problems. make sure that there's something about m'cycles and scooters in EVERY e you send out . . .

Big
