Importance: High

I just finished reading Plan 2040 and have decided I am in favor of all the provisions except the need of increasing (applying pressure) to local governments such as Fairfield, CA to increase housing.

Unless the plan is revised to also have a provision to provide additional schools and teachers, we do not need the increase in housing and additional Families, of any walk of life, adding additional pressure to our already overburdened school systems.

Regards,
Ken Reeder
