Subject: Mass transit won't work as the only solution
Date: Friday, May 19, 2017 6:25:47 AM

We already have a terrible infrastructure in this State, we don't need it to be worse.
Mass transit brings with it, added crime (look at Bart and the NY Subway as examples).
creates conditions for the spread of communicable diseases.
is severely unsanitary (look at Bart),
Causes riders unnecessary waste of time waiting.
Is a serious security nightmare for mass casualty events.
